JOHN HOWEY, A. WEST MONDAY, SEPTEMBER 28, 1911 The Russian avalanche got fairly under way.

The Australians have captu Kaiser Wilhelm's Land. Unfor-

ranza and Carranza is responding with broadsides of refusals. The outcome is fairly certain, Mex-ican may be eclipsed for the time being, but it is still Mexico.

Albertans will heartily approve the Government's decision to do-nate five thousand bags of Al-berta flour to the destitute people of Helgium. They surely deserve help if any people in the world deserve it, and their needs are as great as their deserts.

The council on Friday ratified the payment of salary to Alder-men East and Driscoil for the periods during which they re-spectively acted as chief execu-tive in the absence of the Mayor. The payment having been made, the ratepayers may not raise ob-jection. But it should be under-stood that no one draws salary tood that no one draws salar; for acting as mayor during the recouncil votes approval befor nd. Paying first and askin council about it afterwar add not go any more.

British officers have revised their opinion of the accuracy of German gumery, and now declars it to be excellent. Two-diffits of the British officers having here put out of action in the last month, the survivors have good vasion for amending their pervision sestimate. The enemy have no doubt quite as good reason to inold a high opinion of the accuracy of the British and French gumers, for their losses in both officers and men are condidently believed to have been far the factive. In fact the gumery on both sides seems to be fiendishly good.

A farmer in the Lacombe dis trict was suffocated by gas while digging a well. Several accidents of the kind have occurred during the summer. They illustrate the aced of greater caution

The police have run out a gang of hold-up men who were import-ed to operate in the city. This will serve to remind the public that eternal vigilance is the price of safety. Also that with vig-ilance safety is possible of attain-ment.

Mr. Churchill's advice to Ital: Mr. Churchill's advice to Italy, is to grab what belongs to it while the grabbing is good. The advice is equally good. If Germany and Austria should win, Italy will pay for its neutrality as Belgium was made to pay. If the allies win they are not likely to trouble themselves about the claims of nations which did not try to enforce the claims against the conforce the claims against the e non enemy.

Mr. Paul Crath writes the Bu Mr. Paul Crath writes the letin correcting a report of his remarks at a meeting held on Sunday last, which appeared in a recent issue. Accepting Mr Creat's correction, it is necessary Sunday last, which appeared in recent issue. Accepting M Crath's correction, it is necessar to remind him that at preset Canada as a part of the Britis Empire is in a state of war. The Russia is an ally of Britain in the war. And that it is not permissible in Canada to conduct a can sable in Canada to conduct a cam-paign of antagonism against the allies of Britain, no matter how much those conducting the cam-paign may be convinced of the justice of their cause. It is abhor-rent to the principles of Britist liberty to interfere with the righ-of free speech. But at presen-British liberty itself is in temory. When it has been efficiently safe guarded will be time enough to

Fiv-others of the same type located in other cities have also compelled the cancellation of their licensee by their conduct. These cancella the cancellation of their licenses reason for amonding their privates estimate.
